

# Blue Spear English Lavender

Blue Spear shows off bigger, taller spikes than any other seed lavender, with more upright flower stems that stand closer to each other for huge impact from a distance.

## *Lavandula angustifolia* 'Blue Spear'

- **Use:** Large royal purple flower spikes crowd together on well-branched, bushy plants for showy impact. Incredibly fragrant flowers and foliage are ideal additions to sachets and potpourris. ... Many feel Lavender scent places them in a relaxed state.
- **Exposure/Soil:** Full sun– part sun. Drought tolerant once established. Needs at least 6 hours afternoon sun. **Soil must be sandy and have a pH of 7, so add lime. NO RED CLAY!** Keep water off the leaves, water under foliage. Good drainage, pH, and air circulation are key to success.
- **Growth:** Grows 10-12" tall , 10-12" wide.
- **Hardiness:** Zone 5-8; Perennial. Mulch heavily around the plant
- **Foliage:** Evergreen in warmer climates. Thin, gray-green leaves that boast a sweet fragrance
- **Flower:** Produces dark purple blooms that are tighter together, delivering more color and fewer airy gaps. Prune and hang upside down to dry if desired.
