

Caladiums

Caladium sp.

- **Use:** Caladiums thrive outdoors during the warmer months and add a lush, exotic touch to your yard or garden. They look fantastic in pots next to your shady front entrance or on the deck.
- **Exposure/Soil:** Plant in partial sun to full shade. Use slow release or water soluble fertilizer. Keep soil moist watering under leaves and flowers for best results, but don't leave them in soggy areas or too much water.
- **Growth:** Grows 1-2' tall depending on the amount you water and fertilize them.
- **Hardiness:** 9-11 Annual Heat tolerant.
- **Foliage:** Many different colors to choose from.
- **Flower:** Small spathe type flower. Not very noticeable.

**Loves the shade
and super easy!**
