

Pacino Lemon Sunflower

A favorite of children!

Helianthus annuus 'Pacino Lemon'

- **Uses:** Sunshine in a pot! An abundance of brilliant 5-6 inch lemony yellow flowers....all at one time! Dwarf plants can be grown in a pot, containers, or in the garden. Perfect for cutting for indoor arrangements.
- **Exposure/Soil:** Full sun. Water regularly, when top 3 in. of soil is dry. Use slow release fertilizer for best results. Prefers not to be overwatered.
- **Growth:** Ultra dwarf sunflower. 18" tall and 12" wide.
- **Hardiness:** Zone 9-11, annual, May reseed.
- **Foliage:** The foliage is a handsome rich, dark green so intense it looks black from a distance. The plant branches young and sets numerous buds on its side shoots, giving you more blooms than you might think possible.
- **Flower:** Lemon yellow petals and gold centers.
