

Surfinia Petunia Basket

No matter how hot, humid, or rainy the weather gets, Surfinia® can take it. Neat, free-flowering, and vigorous, it's the perfect container Petunia for nonstop double color all season long!

Petunia 'Surfinia Series'

- **Use:** The amazing trailing Petunia has gone designer! Terrific quick growth, great weather resistance, and nonstop blooms! It doesn't get any better than this for your hanging baskets, windowboxes, terraced gardens, and tall flowerpots
- **Exposure/Soil:** Plant in full sun to partial sun. Use slow release or water soluble fertilizer. Keep soil moist watering under leaves and flowers for best results.
- **Growth:** Well-branched and very dense, these plants reach 12 to 16 inches high but spread up to 30 inches wide, filling even big containers. But you can also plant a single Surfinia®Double in a pot as small as 4 inches - it adapts to the available space!
- **Hardiness:** Zone 8-11; Annual; Vigorously branching plants have an upright mounding habit, making it perfect for containers or the flowerbed.
- **Foliage:** Deciduous. Pinch back tips occasionally for a super bushy plant.
- **Flower:** Blooms earlier than any other double Petunia we have ever seen. These blooms appear all over neat, tightly mounded plants beginning in mid-spring and continuing nonstop through summer and, in most climates, right into fall! Talk about flower power!
