

Ferrari Amaryllis

Comes back
every year and
very easy to
grow!

Amaryllis 'Ferrari'

- **Use:** The shapely blooms and rich, iridescent colors of Amaryllis light up a cold day like nothing else we know.
- **Exposure/Soil:** Prefers full sun to part sun. Water regularly, when top 3 in. of soil is dry. Drought tolerant when established, but prefers moist soil, but must be well-drained.
- **Growth:** The non-invasive stems spread out to 12-18" tall and 6-8" wide.
- **Hardiness:** Zone 7-10 ; Perennial; Herbaceous. (it is claimed that they are cold hardy down to zone 6) In zones 7 and below, we recommend deep planting (up to 4 inches of soil above the bulb) and a thick winter mulch.
- **Foliage:** Deciduous. Long, strap-like leaves.
- **Flower:** This popular choice is shiny like a new Ferrari and equally attention-getting. Its flowers—strong, bold, and up to 4 per stem with 4 stems on this larger size —are a full 8" across. Allow 8–10 weeks from bulb to bloom.

Did you know that we recycle empty pots and trays? Please bring them back! Save the Earth!
