

Ice Baby Daffodils

Narcissus 'Ice Baby'

- **Planting density:** 6 inch apart, 4-5 per sq. ft.
- **Planting depth:** 8 inches to base of the bulb.
- **Best planted in a mass of 30 or more for dramatic effect.**
- **Use:** Daffodils are great for naturalizing, so you'll enjoy these beauties year after year. Heat tolerant, long-lasting flowers are excellent for cutting. Beds, rock gardens, in patio planters, and woodland garden. We find it to truly be the easiest bulb to plant in the garden.
- **Exposure/Soil:** Full-part sun. Moist, well-drained soil, but not soggy. Drought tolerant once established.
- **Growth:** Grows 10-12" tall.
- **Hardiness:** Zone 3-8; Perennial. Bulb.
- **Foliage:** Deciduous. Do not cut off the leaves after flowering.
- **Flower:** Beautiful yet petite, 2" daffs emerge a soft yellow-green and mature to greenish-white. They boast an exotic star shape that is quite uncommon for daffodils. Trumpet type.
