

Caraflex Cabbage

Brassica oleracea 'Caraflex' (less than 40 days to maturity)

- **Use:** Extremely uniform, small heads with good wrapper leaves for insect and sun protection. Inner leaves are tender, crunchy, and have an excellent, sweet and mild cabbage flavor. Perfect for summer salads, slaws, or cooked dishes
- **Exposure/Soil:** Full to part sun. They must have well-drained soils, so if you have red clay you must amend it. Water regularly, when top 3 in. of soil is dry.
- **Growth:** Grows 12" tall and wide. Recommended spacing is 12 to 15 inches on rows at least three feet apart. You can also increase production in small garden by planting a double row on a bed.
- **Hardiness:** Vegetable; Can be planted in spring, summer, or fall.
- **Foliage:** Soft, tender deep-green leaves brimming with succulent sweet flavor make this green the new star of the kitchen garden! The nutrient-rich leaves become the perfect lettuce alternative: adding crisp flavor to salads, sandwiches, and slaws. Pointed mini-head lettuce is suited for spring and fall growing. Heavy yields and excellent disease-resistance. Stores for up to 10 weeks.
- **Flower:** Not known for flowers.
