

Serrano Pepper

**You can grow
them in a pot on
your patio!**

Capsicum annum 'Serrano' Scoville 10,000-23,000

- **Use:** Serrano will give you dozens of fruits per plant. Pick them early when the peppers are green and more mild or wait until they're mature and "red hot". The distinct flavor of this bright red chile makes it perfect for hot sauces and pickling. Needs warm conditions day and night to germinate and fruit well.
- **Exposure/Soil:** Full sun or at least 5-6 hours of afternoon sun. Water regularly, when top 3 in. of soil is dry. Use slow release fertilizer for best results. Keep water off leaves and flowers.
- **Growth:** Plants are 25" tall and multibranching.
- **Hardiness:** 9-11, Annual, houseplant.
- **Foliage:** The short fuzzy leaves are unique and distinctive as well.
- **Flower:** Bears clusters of medium-walled, finger-sized fruits. Pick at peak of color.
