

Adriana Lettuce

Lactuca 'Adriana'

- **Use:** Heat tolerant dark green butterhead. Developed by the same talented breeder who gave us Ermosa, Adriana is large and has a broad disease package. Heads are full and dense with good flavor. Good tolerance to tipburn and bolting.
- **Exposure/Soil:** Full to part sun and keep the soil evenly moist.
- **Growth:** Grows 6-8" tall and wide and larger. 30 days to baby lettuce; 55 days to full size.
- **Hardiness/Harvest Time:** Annual / Yields in less than 90 days.
- **Foliage:** Heads are full and dense with good flavor. Good tolerance to tipburn, heat, and bolting, with resistance to Downey Mildew races 1-16 and LMV.

Heat tolerant dark green butterhead.
