

Big Beef Tomato

Coupled with old-fashioned, rich flavor, it features bred-in hybrid qualities: colossal fruit size and yield, uniformity and a full spectrum of disease resistance. Don't forget to plant Marigolds with your Tomatoes to keep away the bugs!

***Lycopersicum 'Big Beef'* Indeterminate type**

- **Use:** Truly a miracle of modern breeding technology, combining traditionally delicious flavor with today's disease resistance. The result is what many experts at the AAS trials describe as "the best tomato yet developed." An indeterminate variety to try in virtually any climate, readily over-coming adverse growing conditions and adapting easily to different environments.
- **Exposure/Soil:** FULL SUN! Soak to depth of 6 to 10 inches when watering. They need at least 6 hours of direct sunlight a day. Tomatoes hate red clay so use a good soil such as our PRO_MIX. 73 days.
- **Growth:** Grows 36" tall and 36" wide. Plant tomatoes 2"-3" deeper than current soil line for a sturdy plant.
- **Hardiness:** 9-11, annual, houseplant.
- **Foliage:** Small, lacy leaves.
- **Fruit:** . Fruits are globe-shaped and smooth, weighing 9 oz. to one lb., most averaging 10-12 oz.
