

Sweet 100 Tomato

Easy Caprese Salad Recipe

1 pint of cherry tomatoes

½ lb. bocconcini -1 inch fresh Mozzarella balls

2 tbsp. Extra Virgin olive oil

A dozen or so fresh basil leaves

Salt and freshly ground black pepper

Lycopersicum 'Sweet 100' (Indeterminate)

- **Use:** This garden favorite bears 100 or more small, sweet red tomatoes in clusters on long branches. Cherry-type tomatoes do very well in sunny patio containers, hanging baskets, or **Topsy Turvy** planters.
- **Exposure/Soil:** Full sun or at least 5-6 hours of afternoon sun. Water regularly, when top 3 in. of soil is dry. Use slow release fertilizer for best results. Keep water off leaves and flowers.
- **Growth:** Grows quickly 3' tall. Plant 3' apart in rows (4' wide). You'll definitely want to stake or cage these vigorous climbers to keep the fruit off the ground and avoid pests and diseases.
- **Hardiness:** 9-11, Annual, Houseplant.
- **Foliage:** Small, lacy leaves.
- **Fruit:** Bursting with sugary flavor, Sweet 100s produce scarlet, cherry-sized fruits in long clusters right up to frost.
