

German Chamomile

Save money and always have a fresh supply with your own herb garden!

Matricaria chamomilla

- **Use:** A delicate herb that contains both ornamental and culinary qualities. German Chamomile is most famously used in the brewing of tea, but is also routinely used in shampoos and other cosmetic products. Also used as an ornamental ground cover.
- **Exposure/Soil:** They love full hot sun, but be sure to keep them well watered, but not drowning. Pinch tips back occasionally to produce a bushy plant! Use slow release fertilizer for best results
- **Growth:** Grows 2-3 ft tall and continues to spread. Excellent for use in containers
- **Hardiness:** Zones 4-9 Perennial
- **Foliage:** Deciduous. Green lacy leaves.
- **Flower:** Daisy white flowers in summer
