

Parsley

**Stays green all winter
and looks great when
planted with pansies!**

Petroselinum crispum 'Frisca Curly'

- **Use:** Cook with your own fresh herbs! The Italian Dark Green Flat Parsley is the variety preferred by gourmet cooks. It both enhances and dilutes strong flavors such as onions or garlic. Their culinary uses includes salads, soups, butters, fish, and poultry. Flat Parsley is a very nutritious herb containing large quantities of vitamins and mineral such as calcium, iron, phosphorus, potassium and magnesium. They are great in window boxes and pots either inside or outside.
- **Exposure/Soil:** They love full sun, but be sure to keep them well watered, but not drowning. Pinch tips back occasionally to produce a bushy plant! Use slow release fertilizer for best results
- **Growth:** Grows 12" tall and continues to spread.
- **Hardiness:** Zone 3-10; Perennial
- **Foliage:** Fragrant edible leaves.
- **Flower:** Not known for flowers
