

Spider Plant

Very easy to grow! Kids love to watch them grow spider looking airplants!

Chlorophytum variegata

- **Use:** One of the easiest houseplants you will ever grow! We have also heard customers bragging that they will come back in the shade garden if established for a season before winter hits.
- **Exposure/Soil:** Use slow release or water soluble fertilizer. Keep soil moist watering under leaves and flowers for best results.
- **Growth:** Fast growing to 12" tall, and continues to grow in width and hang down.
- **Hardiness:** 7-9 Treated as an annual and a houseplant, but many of our customers have success with them coming back. Place 2" of mulch around plant in the winter.
- **Foliage:** Green/ white leaves. Deciduous.
- **Flower:** Single white flowers late spring to summer produce new plants on long hanging stems.
