

Peace Lily Plant

**The best selling
houseplant for
shady conditions!**

Spathiphyllum sp.

- **Use:** Spathiphyllum are attractive indoor foliage plants which tolerate very low light levels.
- **Exposure/Soil:** The soil should be kept moist but never soggy. Allow the soil to dry out slightly between waterings, but excessive drying can make the plant to wilt and cause yellowing of leaves. When watering, it is very important to use room temperature water which has been allowed to sit for 24 hours to allow the chlorine to evaporate. It is a good idea to bottom water.
- **Growth:** Can grow 3-4' tall and wide.
- **Hardiness:** Zone 10 Houseplant, Annual
- **Foliage:** Handsome paddle-shaped leaves standing erect from short stems.
- **Flower:** NoFlower stalks have a white, erect bract behind the inflorescence spike.
