

# Legro Potting Mix

- **Universal potting soil is suitable for many purposes such as filling flower boxes, transplanting trees, bushes and growing vegetables, perennials, and bedding plants.**
- **The potting soil is light and retains moisture easily as it is mostly peat moss and coir peat.**
- **Ideal pH of 5.6-6.6**
- **We added base compost for an optimal development of your plants' roots.**
- **Enough fertilizer in the bag for 6-9 weeks.**

**What we use in our greenhouse!  
Once you use it you will see the difference.  
Retains water better!**
