

# Little Moonshine Yarrow

We love them as long-lasting cut flowers. Drought tolerant, attracts butterflies, deer resistant, and very easy to grow!

## *Achillea millefolium* 'Little Moonshine'

- **Use:** A clump forming yarrow with striking silver-green foliage and flat clusters of pleasant yellow flowers from June through September. Growing shorter than 'Moonshine' it can be used in the front of the bed and looks great against Blue Salvia. Deer and rabbit resistant.
- **Exposure/Soil:** Full/part sun; Doesn't like much fertilizer. Needs good drainage and can take poor to moderate soils, but avoid clay and rich soils. Requires little to no fertilizer.
- **Growth:** Compact variety of Yarrow with a 8-12" height and spread making it a great plant for front borders.
- **Hardiness:** Zone 3-9; Perennial
- **Foliage:** Semi-evergreen. Lacy foliage is fragrant.
- **Flowers:** An upright canary-yellow flower that blooms from June through September. The flowers are very long lasting and are wonderful for cutting and drying. Deadhead the flowers for re-bloom and cut back to the basal leaf after bloom has finished.
