Agapanthus 'Golden Drop'

- **Use:** Stems bearing beautiful blue flower clusters are held aloft above the lush strap-like foliage which is accented with gold. A stunning addition to the landscape, and looks amazing when planted en masse. Attracts Birds / Butterflies, Clumping Habit, Cut Flowers, Disease / Pest Resistance, Drought Tolerance, Returns Year After Year
- **Exposure/Soil:** Full to part sun. During the summer, be prepared to give them plenty of water. During the winter they prefer well-drained soils.
- **Growth:** Grows 1-2' H x 1-2' W
- **Hardiness:** Zone 7-9; Perennial; Mulch around plant in the winter.
- **Foliage:** Deciduous. Narrow, gold-accented foliage.
- **Flower:** Bold blue flowers. Blooms open in spring, re-blooming through summer.
