

# Borneo King Upright Elephant Ears

The biggest Elephant Ear available! This one grows very quickly in 1st year to over 4-8' tall or more. A real crowd pleaser!

## *Alocasia 'Borneo King'*

- **Use:** Impress the neighbors with this amazing upright Elephant Ear that grows quickly in one season! The leaves grow upright unlike the old fashioned type and is truly spectacular! The plant is similar to Alocasia Odora as far as hardiness and vigor but with the size of Alocasia Borneo giant which can grow to giant size in far southern states.
- **Exposure/Soil:** Full sun– shade, very easy to please. Provide well-drained, moist soil, but not soggy. Use a slow release fertilizer. Always hungry this plant loves lots of water and fertilizer! Protect from winds helps.
- **Growth:** Grows from small plants to 4 to 8 feet in one season and can reach even larger size the following season.
- **Hardiness:** Zone 7b-10, perennial Mulch around the base of the plant 1–2 ft in the fall.
- **Foliage:** Deciduous; The leaves are large upright foliage usually 3 to 4 feet long and 3 to 4 feet wide. As the leaves mature they tend to have a rippled effect which is often seen in Borneo Giant. With age a large trunk will form.
- **Flower:** Not known for their flowers.
