

# Little Vision in Purple Astilbe

## ***Astilbe 'Little Vision in Purple'***

- **Use:** More compact plant habit, more finely dissected leaves, and darker colored flowers. These flowers form a dense block of fuzzy, pyramidal shaped, lavender plumes, presented just above the coarsely textured, dark green foliage in midsummer. Great for use in planters and in the garden! Deer resistant and nice for cutflowers.
- **Exposure/Soil: Prefers part sun!** Use slow release or water soluble fertilizer. Prefers to be kept moist and likes rich soil. Keep soil moist watering under leaves and flowers for best results. Drought tolerant once established
- **Growth:** Grows 12-15" tall and wide.
- **Hardiness: Zone** 3-9 perennial. Mulch around plant in the winter. Make sure they have well drained soil in the winter.
- **Foliage:** Deciduous. Deer resistant! Foliage is deeply incised, coarsely textured, and often bronze-green in color.
- **Flower:** Flowers are borne on narrow, branched panicles in summer.

**Like all Astilbe chinensis types, this one exhibits a bit greater tolerance to drier soils and can tolerate full sun.**
