

Cup & Saucer Bellflower

Excellent cut flowers. Allow some plants to self seed, which will produce another generation for future years.

Campanula medium 'Calycanthema Mix'

- **Use:** A double-flowered form of the old-fashioned biennial, Canterbury Bells, these deserve to be grown more often in modern gardens. Plants form a low rosette of green leaves in the first year. In the following summer, upright stems will bear loads of large dangling bells, hanging from extra petals that form the saucer. Grown in a mixture which includes shades from white, through pink, rose, blue and lavender.
- **Exposure/Soil:** Prefers full-part sun Water when top 3" of soil is dry.
- **Growth:** Grows 2-3' tall and 12-18" wide.
- **Hardiness:** Zone 2-9; Perennial.
- **Foliage:** Deciduous. The dark green thread leaf foliage makes a great contrast with the flower color.
- **Flower:** Produces large 3in flowers on loose racemes from spring to early summer in a wonderful mix of colours: pink, rose, lavender, violet, white, or blue, each large flower is surrounded by a calyx of the same colour as the petals. With bold stalks of big, beautiful bells and up to twenty prolific stems per plant, this is a superb plant for the back of the border. Stems are superb for cutting.
