

Red Shades Cannna Lily

Great for landscapes and container plantings in full sun!

Canna indica 'Cannova Red Shades'

- **Use:** Cannas are flamboyant yet elegant plants. Even when not in flower, their large, healthy-looking, beautiful, banana-like leaves and shoots make them highly ornamental garden plants. These shoots then produce arrow-shaped flower buds. Emerging from the buds are large elegant lily-like flowers available in various bright and appealing colours according to the variety.
- **Exposure/Soil:** Full sun–part shade (not deep shade); Water regularly, when top 3” of soil is dry. Use slow release fertilizer twice a year. Once established needs only occasional water.
- **Growth:** Grows quickly reaching about 2-3’ tall and wide.
- **Hardiness:** Zone 7-10; Perennial, Mulch around plant in winter.
- **Foliage:** Deciduous. Large, broad leaves.
- **Flowers:** From the time that the plant starts to bloom (usually May-June), cannas continue to flower either until November.
