

Yellow Dwarf Cannova Canna Lily

**Great for landscapes
and container plant-
ings in full sun!**

***Canna indica* 'Cannova Yellow'**

- **Use:** Radiant, vividly colorful tropical beauty unleashes a summer fanfare of yellow spikes of flag-like, lilylike blooms held above large, lush, bluish-green pointed leaves. Earliest-flowering of cannas, exotic tropical dazzler is a star garden attraction from May right into October.
- **Exposure/Soil:** Full sun–part shade (not deep shade); Water regularly, when top 3” of soil is dry. Use slow release fertilizer twice a year. Once established needs only occasional water.
- **Growth:** Grows quickly reaching about 30-40” tall and wide.
- **Hardiness:** Zone 7-10; Perennial, Mulch around plant in winter.
- **Foliage:** Deciduous. Large, broad leaves.
- **Flowers:** Sunny yellow blossoms from the time that the plant starts to bloom (usually May-June), cannas continue to flower either until November.
