

Red Flame Canna Lily

Striking foliage contrasts with the flowers, making them a great option for mixed combinations or in-ground plantings.

Canna indica 'Cannova Red Flame'

- **Use:** These new cannas are fast, vigorous, highly disease resistant and easy to grow in greenhouse production. They are ideal for warm climates where they flower like crazy in the heat. Great for landscapes and container plantings in full sun!
- **Exposure/Soil:** Full sun–part shade (not deep shade); Water regularly, when top 3” of soil is dry. Use slow release fertilizer twice a year. Once established needs only occasional water.
- **Growth:** Grows quickly reaching about 30-40” tall and 1-2’ wide.
- **Hardiness:** Zone 7-10; Perennial, Mulch around plant in winter.
- **Foliage:** Deciduous. Their tropical-looking bronze foliage lends bold texture to the space until the flowers steal the show from summer through fall.
- **Flowers:** A profusion of large scarlet blooms with thin yellow margins. Continues to flower from May/June until November.
