

Toucan Scarlet Canna Lily

**Great for landscapes
and container plant-
ings in full sun!**

***Canna indica* 'Toucan Scarlet'**

- **Use:** These new cannas are fast, vigorous, highly disease resistant and easy to grow in greenhouse production. They are ideal for warm climates where they flower like crazy in the heat.
- **Exposure/Soil:** Full sun–part shade (not deep shade); Water regularly, when top 3” of soil is dry. Use slow release fertilizer twice a year. Once established needs only occasional water.
- **Growth:** Grows quickly reaching about 30-40” tall and wide.
- **Hardiness:** Zone 7-10; Perennial, Mulch around plant in winter.
- **Foliage:** Deciduous. Their tropical-looking bronze foliage lends bold texture to the space until the flowers steal the show from summer through fall.
- **Flowers:** A profusion of large scarlet blooms (usually May-June), cannas continue to flower either until November.
