

Tropical Yellow Canna Lily

Few flowers are so dramatic, long blooming, fast growing, and very easy for the beginner gardener!

***Canna indica* 'Tropical Yellow'**

- **Use:** A compact, fast-multiplying canna, topped from spring until frost with intense bright red flowers. These Cannas will make an impressive focal point in a bedding display. The large blooms form an imperial spike that will add an exotic look to your garden. A pleasure to grow! Cannas make great borders and bedding plants. Their vibrant colors and attractive foliage will demand attention where ever they are planted. Try a potted Canna for your deck or patio to add color and elegance.
- **Exposure/Soil:** Full sun–part shade (not deep shade); Water regularly, when top 3” of soil is dry. Use slow release fertilizer twice a year. Once established needs only occasional water.
- **Growth:** Grows quickly reaching about 2-3’ tall and wide.
- **Hardiness:** 7-9; Perennial, Mulch around plant in winter.
- **Foliage:** Deciduous. Large, broad leaves.
- **Flowers:** Sunny, yellow, flowers from spring until fall.
