Colocasia esculenta 'Madeira'

- **Use:** A velvet, black-leaved dwarf selection to two to three feet that you long to touch such is the beauty of the foliage.
- **Exposure/Soil:** Sun– part shade. Provide well-drained, moist soil, but not soggy. Use a slow release fertilizer. The more water and fertilizer they get the better. Could grow in a well aerated pond.
- **Growth:** It makes a giant clump to 3-4' tall with a similar spread.
- **Hardiness:** **Zone 6b-10**, perennial, mulch 1' around plant in fall
- **Foliage:** Boasts dark green leaves with blue veins. Its large shield like appearance is truly a show stopper.
- **Flower:** Not known for flowers.
