

Full Moon Big Bang Coreopsis

Coreopsis are superb in the border. Reliable, long blooming daisy-like flowers are produced from early summer into fall. Just give them some sun and enjoy the show. Big Bang™ Series was hybridized for larger flowers. They set little to no seed and put all their energy into flowering.

Coreopsis 'Big Bang Full Moon'

- **Use:** The first of the Big Bang™ series - Full Moon has large canary yellow flowers that can reach 3" across. Foliage of medium texture holds up very well in the heat. Very long blooming - the cheerful presence of these flowers will grace your garden all summer long. Deer resistant.
- **Exposure/Soil:** Prefers full sun or at least 5-6 hours of afternoon sun. Water regularly, when top 3 in. of soil is dry. Drought tolerant once established.
- **Growth:** Grows quickly to 18-24" tall 24" wide.
- **Hardiness:** Zone 5-9 Perennial
- **Foliage:** Deciduous. Small oblong leaves. A quick shearing periodically will keep it looking nice and tidy all season long.
- **Flower:** Bright, canary-yellow blooms are 3" across and long-lasting, illuminating the garden from late spring into fall.
