

# Lil Bang Enchanted Eye Coreopsis

Enjoy these brilliant blooms all season long with this cold-hardy, disease-resistant, long-blooming dwarf Coreopsis!

## ***Coreopsis 'Lil Bang Enchanted Eve'***

- **Use:** Coreopsis Enchanted Eve with its finely sculpted golden-yellow flowers with 'pinked' edges is splashed with red-orange. Daisy-like blossoms will open a little earlier than the Big Bang™ varieties and at ½ the height. From the Li'l Bang Series, the naturally compact habit of Coreopsis Enchanted Eve is carefree - disease resistant and long blooming. From master hybridizer, Darrell Probst.
- **Exposure/Soil:** Prefers full-part sun It's fairly drought tolerant and needs little water. Looks lovely outside on the patio in planter. Prefers well drained sites where it spreads by rhizome and self seeding.
- **Growth:** Height of 1-1.5' tall and a spread of 14-20". It should be cut back early and late summer to extend the bloom period.
- **Hardiness:** Zone 5-9; Perennial. Very heat and drought tolerant!
- **Foliage:** Deciduous. The dark green thread-like foliage makes a great contrast with the flowers.
- **Flower:** A shower of butter yellow blossoms with a soft red eye appear from early summer through early fall, with the red eye expanding to cover more of the petal surface in cooler temperatures. Since the flowers are sterile, they just keep on coming all season long without the need for deadheading.
