

# Threadleaf Coreopsis 'Moonbeam'

## *Coreopsis verticillata* 'Moonbeam'

- **Use:** Coreopsis verticillata 'Moonbeam' has fernlike foliage with tiny light yellow to lemon colored flowers throughout summer. With such a fine texture this plant works very well in hanging baskets, mixed containers, as well as for a border planting.
- **Exposure/Soil:** Prefers full-part sun It's fairly drought tolerant and needs little water. Looks lovely outside on the patio in planter. . Prefers well drained sites where it spreads by rhizome and self seeding.
- **Growth:** Height of 18" and a spread of 18-24". It should be cut backing early and late summer to extend the bloom period.
- **Hardiness:** 3-9 perennial. Very heat and drought tolerant!
- **Foliage:** Deciduous. The dark green thread-like foliage makes a great contrast with the flowers.
- **Flower:** Pale yellow flowers bloom heavily from June through August, with repeat bloom till frost.

**Super tough and drought tolerant once established. Perennial of the year in 1992!**
