

# Corona Strawberry Dianthus

Blooms  
Fall-  
Spring.!

## *Dianthus chinensis* 'Corona Strawberry'

- **Use:** Wow 'em with the biggest blooms of any dianthus of this type...exceptional flower form...and a palette of showstopping color choices. Corona adds a regal touch to cool-season landscapes, gardens and patio planters. Tidy plants are valued for mass bedding effects or mixed perennial borders. Perfect for container gardens.
- **Exposure/Soil:** Full/part sun; Water regularly, when top 3 in. of soil is dry. Appreciates slow release fertilizer twice a year. Once established needs only occasional water.
- **Growth:** Grows 8-10" tall and slightly wider.
- **Hardiness:** Zone 5-8; Biennial , reseeds
- **Foliage:** Evergreen
- **Flowers:** These bicolor salmon-coral single blooms measure about 1 1/2 inches wide, and merrily fringed. They absolutely blanket the petite plant over their long season, beginning earlier than others and staying quite uniform in size, so that they make superb formal plantings.
