

Jolt Pink Dianthus

Nonstop
blaze of
showy,
bright-
pink fringy
blooms
non-stop
from
spring into
fall.

Dianthus 'Jolt Pink'

- **Use:** Produces a shocking blaze of super-charged color all summer long. From award-winning 'Jolt' series, ultra-vivid cherry shade mixes magnificently with celosia, rudbeckia and echinacea in the front of the sunny border; downright awesome in a container. Attractively mass in the landscape, midborder, or a favorite container on the patio. Produces baskets of ultra-pink cut-flowers.
- **Exposure/Soil:** Plant in full sun to part sun. Moderate water requirements, but somewhat drought tolerant. Must amend the soil if you have poor soil (like red clay). We recommend the Pro Mix Soil.
- **Growth:** Full sized plants grow to 16-20" inches tall and wide.
- **Hardiness:** Zones 7a-11; Perennial
- **Foliage:** Evergreen; glossy dark green leaves
- **Flower:** Ablaze with lightly fragrant, high-saturation blooms—producing bouquet after bouquet of dazzling cut flowers.
