

# Rockin' Red Dianthus

**Nonstop  
blaze of  
showy,  
deep red  
fringed  
blooms  
non-stop  
from  
spring in-  
to fall.**

## ***Dianthus 'Rockin' Red'***

- **Use:** A party in the garden with 3" lively, red, lacy flowers that bloom in clusters from early spring well into fall! Durable performance and dependable overwintering will keep your garden dancing with color year after year! Long bloom time and upright growth habit makes 'Rockin' Red' a classy high performing border plant, and outstanding for beautiful bouquets.
- **Exposure/Soil:** Plant in full sun to part sun. Moderate water requirements, but somewhat drought tolerant. Must amend the soil if you have poor soil (like red clay). We recommend the Pro Mix Soil.
- **Growth:** Full sized plants grow to 18-24" inches tall and 10-12" wide.
- **Hardiness:** Zones 5-8; Perennial
- **Foliage:** Evergreen; glossy dark green leaves
- **Flower:** Would you look at this big, tall, bushy Dianthus?! No shrinking violet, it's as vigorous and determined to bloom as its size would indicate. And the flowers are gorgeous -- neatly serrated and suffused with fire-engine-red petals around a small rosy-pink eye.
