

Pampas Grass

Drought tolerant and needs little water.

Cortaderia selloana

- **Use:** It thrives in hot, full sun exposures and is especially useful as a specimen along walls and in corners. Plant it in moderately fertile soil with good drainage. Leave standing over the winter before cutting it back hard in mid-spring.
- **Exposure/Soil:** Prefers full sun to part sun. Water regularly, when top 3 in. of soil is dry to start. Little water needed once established.
- **Growth:** Moderate grower 6'-10' tall x 36" wide
- **Hardiness:** 4-9, Perennial Grass
- **Foliage:** Deciduous. Leaves sharp. Cut back in the winter to 2' tall for best look.
- **Flower:** It is extremely showy with its large, fluffy white flower heads that are held on stout stems.
