

Beyond Blue Fescue

Festuca glauca 'Beyond Blue'

- **Use:** Outstanding, icy blue coloration to this clumping ornamental grass holds up even through the heat of summer. Perfectly suited for edging borders or mass planting as a groundcover. Drought tolerant when established.
- **Exposure/Soil:** Full sun or at least 5-6 hours of afternoon sun; Water when top 3" of soil is dry.
- **Growth:** Grows 8-12" tall and wide.
- **Hardiness:** Zone 4-10; Perennial
- **Foliage:** Evergreen; The intense icy blue 'Wow Factor' of this Fescue goes above and beyond! Tidy evergreen mounds of dense quill-like blades remain breathtaking year round.
- **Flower:** Buff colored flowers create eye-catching contrast.

Most Festucas lose their blue color over the summer, but not Beyond Blue. This versatile grass tolerates cold, heat, humidity, low water, poor soils...even deer.
