

# Gold Breeze Grass

**Excellent  
as a  
specimen  
or backdrop  
plant.**

- ***Miscanthus sinensis 'Gold Breeze'***
- **Use:** Miscanthus sinensis 'Golden Breeze' has gold stripes that run horizontally throughout the specimen, which holds an upright and tight growth habit. Shades of gold and a silvery tassel appear with autumn and grace foliage throughout winter. Works well for use as a single specimen or in groupings.
- **Exposure/Soil:** Full sun– part sun. Drought tolerant once established. Needs at least 4 hours afternoon sun.
- **Growth:** Grows 4'-6' H x clumping. Cut back to about 6" from the crown of the plant in February.
- **Hardiness:** Zone 5-9, Perennial
- **Foliage:** Deciduous; Broad, arching apple green blades are banded with golden yellow bars.
- **Flower:** Delicate golden plumes in the fall.
