

Asst Naturalizing Daylily

Hemerocallis sp.

- **Use:** An economical mixture of beautiful colours and bicolours for months of radiant, summery blooms. Easy to grow; they need dividing only every 10-15 years.
- **Exposure/Soil:** Prefers full sun, but will tolerate part sun. Water regularly, when top 3 in. of soil is dry. Its greatest drawback is its requirement to be fertilized frequently to maintain a healthy green color.
- **Growth:** Moderate growing 2 foot tall and wide.
- **Hardiness:** 5-11 Perennial
- **Foliage:** Deciduous.
- **Flower:** Multiple colors!
