

Shanghai Heuchera

This smaller type of coral bells is excellent for container gardening!

Heuchera x 'Shanghai'

- **Use:** This selection produces a large mound of frosty plum-purple leaves in spring. The foliage turns silver in summer and winter. Excellent in containers and for landscape use. Thrives in heat and humidity and is destined to become one of the best new perennials on the market!
- **Exposure/Soil:** Part sun-shade. Best when planted under other trees, but not too deep a shade or poor flowering and leaf color. Moist, well-drained soil, but not soggy. Use slow release fertilizer two times a year. Water regularly, when top 3 in. of soil is dry.
- **Growth:** Fast growth to 12-18 "tall, 24" in bloom overall, by 12-18" wide.
- **Hardiness:** 4-9; Perennial
- **Foliage:** Semi-evergreen. Silvery-purple pointed foliage provides a lustrous glow in the garden, even into the winter months.
- **Flower:** Dainty pink flowers on dark stems rebloom against tight mounds of richly colored, sturdy foliage.
