

Fran's Red Lantana

Lantana 'Fran's Red'

- **Use:** Plant characteristics are similar to other Lantanas. Fine for mass plantings and banks, or containers for poolside...attracts butterflies.
- **Exposure/Soil:** Full sun– part sun. Drought tolerant once established. Needs at least 6 hours afternoon sun.
- **Growth:** Mounded form to 1-2 feet tall, to 2-3 feet wide.
- **Hardiness:** Zone 7b-11, Tender perennial. **Do not cut back stems until April.** Water in the hollow stems will freeze out the roots in winter. Mulch heavily around the plant, and plants must have good drainage.
- **Foliage:** Scented leaves. Deciduous. Cutting grown.
- **Flower:** Has a great show of flowers that last from spring till frost, the flowers are golden yellow, orange and mostly red and will all deepen to red with age.

Heat and sun tolerant; flowers all season; low maintenance.
