

# Lil' Miss Lantana

## *Lantana 'Lil Miss'*

- **Use:** Tropical appearing shrub, but hardy! Plant characteristics are similar to other Lantanas. Fine for mass plantings and banks, or containers for poolside...attracts butterflies. Deer resistant.
- **Exposure/Soil:** Full sun– part sun. Drought tolerant once established. Does not tolerate wet feet.
- **Growth:** Mounded form to 16-24" tall and 24"-48" wide
- **Hardiness:** **Zone** 7-11, Perennial. Do not cut back stems until April after winter is passed.
- **Foliage:** Scented leaves. Deciduous. Cutting grown.
- **Flower:** Produces bunches of sunny flower heads that emerge a bright lemony yellow, aging to rosy pink topped by buttery yellow. The mature flower kind of makes you think of pink lemonade, though the scent is purely tropical; its salt tolerance fits nicely into tropical beach-like settings as well.

**Shorter  
than the  
original  
Miss Huff**
