

# Catnip

## *Nepeta cataria*

- **Use:** Known to be used medicinally as a digestive or sleeping aid, the scented leaves make a fine tea. Use dried or fresh to bring pleasure to your feline friends. Excellent as a companion plant. SO easy to grow and drought tolerant! Deer resistant, but irresistible to cats!
- **Exposure/Soil:** Plant in full sun to partial sun, in well drained soil. Use slow release fertilizer two times a year.
- **Growth:** Grows 30" tall and 36" wide.
- **Hardiness:** Zone 5-8 Perennial
- **Foliage:** Deciduous.
- **Flower:** A rough shearing (cut stems back by about 2/3) after bloom keeps the plants' habit neat and will encourage some repeat bloom until frost.

**Your cats will love it!**  
**Very easy to grow!**
