

# Big Leaf Variegated Periwinkle

## *Vinca major* 'Variegata'

- **Use:** This is a lovely but tenacious evergreen groundcover with large light blue flowers and variegated foliage that will light up shaded areas. Not quite as overwhelming with other plants as the green leaf *Vinca major*, Variegated Big Leaf Periwinkle is recommended for companion planting with blue or green leaf Hosta as well as Daffodils and other spring blooming bulbs.
- **Exposure/Soil:** Prefer part to full shade. Use slow release or water soluble fertilizer. Keep soil moist, water when top 3" of soil is dry. Drought tolerant once established.
- **Growth:** Fast growing to 6" tall x 36+" wide (cutting propagated)
- **Hardiness:** 4-9 perennial. Very easy to grow!
- **Foliage:** Creamy white and green leaves. Semi-deciduous. Many winters it will be evergreen, but in a cold winter may go dormant.
- **Flower:** Starry blue flowers spring-summer.

A great groundcover for shady areas.
