

Penny Viola

Viola Jump Up is a great ground cover. Low growing and self sowing, they are sure to come back every year. Heat and cold tolerant, will flower over an extremely long season, provide welcome color to borders, patios, or decks.

Viola cornuta 'Penny Series'

- **Use:** This hybrid viola as a unique mounded plant habit suitable for a wide range of pot and container sizes. Tolerates more heat and stretches less than other hybrid violas. Hardy to the 44th parallel, root systems are robust for better over-wintering performance. Flowers continuously from beginning to end of season. An old time favorite,
- **Exposure/Soil:** Plant in full sun. These smaller flowering violas are more shade tolerant. Must amend the soil if you have poor soil (like red clay). We recommend a peat based Soil. Require different fertilizer than most plants as they grow in the winter. Use slow release or water soluble fertilizer with Nitrate not Ammonium nitrogen form of fertilizer for best results.
- **Growth:** Grows 4-6" tall and 4-6" wide.
- **Hardiness:** Zone 4-9; Perennial, but treated as an Annual as they are not attractive in the summer, but can survive with other plants shading them until fall when they will return. Reseed.
- **Foliage:** Semi-Evergreen; small green leaves.
- **Flower:** Compact, mound-shaped 6 in. plants produce an abundance of 1 in. flowers. Many colors to choose from! Blooms nonstop from October until April!
