

Dwarf Gold Dust Plant

Deer resistance and shade tolerance!

Aucuba japonica 'Variegata Nana'

- **Use:** Striking gold variegated shrub for shade gardens. Beautiful bright green foliage is so heavily speckled with gold it projects an overall yellow-green appearance. Excellent background for contrasting foliage plants. Excellent accent for shady situations.
- **Exposure/Soil:** Part sun– shade; moist, well drained soil. Water regularly, when top 3” of soil is dry.
- **Growth:** Slow-growing to 2-3 feet tall and wide.
- **Hardiness:** 6 –10 Shrub
- **Foliage:** Evergreen. Broad-leaved evergreen shrub valued for the showy dark green leaves with bright golden-yellow centers. Bold upright stems.
- **Flower:** Insignificant flowers.
