

Azalea Glacier

Azalea 'Glacier' (Glenn Dale hybrid)

- **Use:** One of the most highly rated evergreen azaleas to come out of the US Department of Agriculture's Glenn Dale breeding program. This is a large grower becoming a stately upright shrub with graceful spreading tiered branching clothed with dark green lustrous foliage. Use it in bright woodlands or under tall deciduous trees. Combining with ferns and hostas completes a spring wonderland.
- **Exposure/Soil:** Prefers part shade and moist, well-drained soil, but not soggy.
- **Growth:** Mounding growth to a height of 5-6' tall and 4-5' wide.
- **Hardiness:** 6-9; shrub
- **Foliage:** Small evergreen leaves.
- **Flower:** Large single shining white flowers cover this vigorous grower. Each blossom radiates with a slight green flush emanating from the throat.

Good for use in
flower beds.
Pure white
snowy blossoms.
