

Miss Pearl Butterfly Bush

Buddleia x 'Miss Pearl'

- **Use:** The crisp, clean, pure white flowers of 'Miss Pearl' buddleia are the perfect accent for any landscape, from a cottage garden to more formal plantings. The newest member of the perfectly-sized "Miss" series, it offers a new color of these refined, non-invasive butterfly bushes. 'Miss Pearl' blooms for months and will never be without dozens of honey-scented flowers in the summer time.
- **Exposure/Soil:** Cold, wet winters can be really hard on buddleia, so here are a few tips to help your buddleia thrive in your garden: 1. Make sure the soil is well-drained. 2. Full sun. That's at least 6 hours. No cheating. 3. Wait until it leafs out in spring before pruning. In some years you may have to prune it back to the ground. After milder winters, maybe not so much. Avoid fall pruning.
- **Growth:** Moderate grower to 4-5 feet tall and wide. Deadhead often for best reblooming.
- **Hardiness:** Zone 5 -9; Shrub
- **Foliage:** Deciduous. Silvery green foliage.
- **Flower:** Nonstop large, white clusters of flower heads from May until frost.

**Compact;
reblooming;
non-invasive;
drought-
tolerant**
