

# Pink Micro Chip Butterfly Bush

## *Buddleia x 'Pink Micro Chip Junior'*

- **Use:** Lo & Behold® 'Pink Micro Chip' is the smallest member yet of this series of award-winning dwarf butterfly bush. It's a tiny and tidy mound of orchid-pink flower spikes, with a cute pincushion-like habit that makes it perfect for including in perennial gardens. Earlier blooming than other butterfly bush, which means you get non stop color from early summer clear through frost. Highly deer and rabbit resistant, too!
- **Exposure/Soil:** Cold, wet winters can be really hard on buddleia, so here are a few tips to help your buddleia thrive in your garden: 1. Make sure the soil is well-drained. That place where the plow truck dumps snow in the winter? Not a good idea. 2. Full sun. That's at least 6 hours. No cheating. 3. Wait until it leafs out in spring before pruning. In some years you may have to prune it back to the ground. After milder winters, maybe not so much. Avoid fall pruning.
- **Growth:** Moderate grower to 18-24" tall and 2-3 feet wide. Deadhead often for best reblooming.
- **Hardiness:** Zone 5 -9 Shrub
- **Foliage:** Deciduous. Silvery green foliage.
- **Flower:** Nonstop large 1' long pink flower heads from May until frost.

**Compact;  
reblooming;  
non-invasive;  
drought-  
tolerant**
