

Bicolor Butterfly Bush

Buddleia x weyeriana 'Bicolor'

- **Use:** The Bi-Color butterfly bush blooms all summer long with large blooms measuring 5 - 6 inches with some even growing out to a full 10 inches by the end of the growing season with an amazing fragrance. Attracts butterflies and is deer resistant. Drought tolerant once established.
- **Exposure/Soil:** Full sun to part sun; moist, well drained soil; dislikes wet sites. Water regularly, when top 3 in. of soil is dry.
- **Growth:** Moderate grower to 5 to 6 feet tall and 4 to 6 feet wide. Deadhead often for rebloom.
- **Hardiness:** 6 -9 Shrub
- **Foliage:** Deciduous.
- **Flower:** The very first Butterfly bush variety to produce two different colors within the same bloom; rich lavender combined with butter-scotch yellow. Its extremely fragrant and will attract tons of butterflies to your perennial border or patio garden area.

**Long-blooming
shrub and very
easy to grow!**
