

Camellia 'Bonanza'

Camellia sasanqua 'Bonanza'

- **Use:** A versatile performer displaying a profusion of striking, scarlet peony form blooms. Flowers are perfect for cutting. Spreading form makes this an excellent choice for a colorful low hedge, espalier, or tall ground-cover. The glossy, dark green foliage makes an exceptional foundation planting in sheltered sites with bright shade. Early season bloomer. Evergreen. Every southern garden must include a winter showy camellia. An ideal beginner's plant, the easy-care camellia is covered year-round with broad and glossy toothed leaves.
- **Exposure:** Prefers sheltered site, part sunny or medium shade, and any well drained neutral/acid soil. Extreme summer heat may cause leaf burn; needs some shade if planted near a white house due to reflection of sun.
- **Growth:** Fast growing up to 4' tall and 6' wide.
- **Hardiness:** 6-9; shrub
- **Foliage:** Evergreen, glossy dark green leaves.
- **Flower:** An early blooming arching type, with semi-double reddish pink flowers. Prune only right after blooms fade.

Tolerates heat and humidity well!
