

Well's Special Hinoki Cypress

Chamaecyparis obtusa 'Wells' Special'

- **Use:** This cultivar 'Wells Special' stands erect and has dark green foliage. Has a spreading, irregular, open form with dark glossy green foliage. Very slow growing and is suited principally to a large oriental garden. Splendid bonsai subject. Prune to shape.
- **Exposure/Soil:** Full/part sun and could tolerate a fair amount of shade; well-draining soil and appreciates slow release fertilizer.
- **Growth:** Grows to 15' tall and 10' wide.
- **Hardiness:** 4-8; shrub
- **Foliage:** Evergreen. It typically has blunt, paired leaves with 'X' markings underneath.
- **Flowers:** Not known for flowers.

Collector's plant! Excellent for adding interest to your garden!
